RYSTAD ENERGY ANNOUNCES THE WINNERS FOR GULLKRONEN 2020

Rystad Energy's Gullkronen 2020 was last night held in Oslo with just about 300 guests enjoying a night of industry expertise, awards and entertainment. The event is dedicated to acknowledge high performances and achievements made by companies involved in the energy business during the previous year.

The evening hosted by Susanne Andresen, Editor and Analyst, and Matthew Watson, Partner & Head of EMEA, at Rystad Energy, commenced with an NCS status report by Managing Partner, Jarand Rystad.

During the award ceremony, the **four E&P Awards** were given out as follows:

- Explorer of the Year: Aker BP
- Business Developer of the Year: Equinor and Lundin
- Project Developer of the Year: Equinor (Johan Sverdrup)
- Field Operator of the Year: Lundin (Edvard Grieg)

The **three Oil Service Awards** were given out as follows:

- New Venture of the Year: InflowControl
- Globetrotter of the Year: Tomax
- Business Success of the Year: Interwell

The **Green Award** was given to:

- Green Initiator of the Year: Hywind Tampen (Equinor)

The prestigious Honour Award was handed over to **Kåre Willoch** for securing diversity on the Norwegian continental shelf and huge value creation for Norway through his work as a parliamentarian and prime minister. His initiatives ensured healthy competition and a large number of players on the shelf. He established the State's Direct Financial Interest in oil and gas activity (known as SDØE in Norwegian), which has brought enormous income to Norway over several decades. And last but not least, he laid down the groundwork for what is popularly known as the Petroleum Fund – now worth \$1 trillion – which safeguards Norway's oil wealth for future generations.
