

INVESTOR SOLUTIONS

An independent one-stop-solution for investment decision-makers in the energy space

As an investor, your research needs are market-driven and are bound to change continually. Rystad Energy Investor Solutions combines our powerful research services into one complete package, providing access to our in-depth analysis of the global upstream, oil and gas commodities, and oilfield service industries in order to enhance your ability to make timely, fact-based investment decisions.

Investor Solutions enables you to

- Analyze company valuation sensitivity to commodity prices
- Benchmark companies' shale acreage, cash flows and breakeven prices
- Assess well results by operator and basin
- Understand global liquids supply and demand
- Assess recent gas market developments and their impact on the spot market
- Determine the demand for oilfield services based on which fields will be developed
- Analyze which service companies are set to gain market share

Subscription includes

- Best-in-class energy data for E&P and Oilfield Service sectors
- Access to highly experienced industry analysts, following more than 3,200 public and private companies
- Library of trends reports, weekly commentaries and factsheets
- Market presentations with in-depth bespoke analysis
- Customized templates based on your unique workflows
- Frequent events and webinars
- Training to ensure maximum efficiency
- Tiered packages for different access levels

Ideal for

- Institutional Investors
- Hedge funds
- Money managers
- Private equity
